REASONS FOR ALLOWANCE

1. The provisional rejection of claim 1-34 under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 1, 20 and 21 of copending Application 09/911,409 is withdrawn moot by the cancellation of claims 1, 20 and 21 of co-pending Application 09/911,409.
2. The objection of claims 1-34 under 37 CFR 1.78(b) as conflicting with claims 1-25 of co-pending Application 09/911,409 is withdrawn moot by the cancellation of claims 1, 20 and 21 of co-pending Application 09/911,409.
3. Applicant's arguments, see page 10 and 11, filed 08/04/2005, with respect to 1, 27 and 28 have been fully considered and are persuasive. The rejection of claims 1-34 has been withdrawn.
4. Claims 1-34 are allowed.
5. The following is an examiner's statement of reasons for allowance:

The closest prior arts, Nitta et al (JP 09-281933) and Shimamoto (US 6,147,672), single or combination, do not teach or suggest that "a RAM-incorporated driver that drives a display section based on still-image data and moving-image data comprises wherein the RAM includes memory cells each of which has two input ports through which the moving-image data and the still-image data are input separately and an output port through which data stored in the memory cell is output."

These distinct features have been added to the independent claims 1, 27 and 28 and render the above limitations allowable and along with other limitations as recited in the independent claims 1, 27 and 28.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
